NBYC Swimming Level Descriptions

To help us appropriately place your child in a swimming class please read the following descriptions and let us know which level you think your child fits into. The swim instructor will informally assess the swim class groups and may make minor changes to the groups if needed.

*****The ages are just for general guidance. We recognize that all kids have different swimming abilities that may be higher/lower than the suggested ages.***

Pre-School (Ages 3-5 , 30 minutes, 2-3 students per class)

This is an orientation getting the child used to the water. The child must be able to take instruction independently. They will work on basic swim skills (kicking/floating/face in the water)

Beginner Intermediate (Age 5-7, 30 minutes, 4-5 students per class)

This is a beginner swim class. The goal is to swim without assistance and float. They will work on submersion, kicking, front and back glides.

Intermediate (Age 7-9, 30 minutes, 4-5 students per class)

Child can swim, doggie paddle, float, and is not afraid of the water. This class pushes them to strengthen swim strokes. The goal is to swim in deep water on their own.

Advanced/Jr. Life Saving/Water Safety (Age 9/10+, 1 hour, 6-8 students per class)

This is a class for strong swimmers to improve all strokes, strengthen swimming endurance, teach proper breathing, and diving. This class will have a portion of the time dedicated to Junior LifeGuarding and Water Safety Instruction that is aligned with the American Red Cross course/certification. This course WILL NOT certify them but will give them the skills and knowledge for future coursework/certification.

Extras: Offer Red Cross Certification courses in CPR/First-Aid/AED
