

Dinghy Storage Regulations

- 1) The dinghy storage areas include the paved area to the west of the clubhouse; the overflow lot to the south of the pump house; and the water area between the club house and the dinghy dock. The paved areas have been lined to create parking spaces that will be available for seasonal rentals from the NBYC. The paved parking area is intended for the storage of sailing dinghies that are primarily used during the summer sailing program. The pump house lot area would be for larger keelboats and other temporary boat storage. The water storage area between the clubhouse and the dinghy dock is intended for tenders (dinghies) of members boats in the mooring field. Seasonal (winter) storage for boats on club property is available and starts after docks out and end with docks in. The overflow lot and the rear parking lot can be used for winter storage of boats.
- 2) Exceptions can be made for winter sailing (frostbiting).
- 3) There are three sizes of ground spaces to accommodate the different fleets of boats at NBYC.
 - a) The spaces along the waterside (**WS**) of the parking lot are 7ft. wide by 18ft. long for: 420's on dollies, Feva's on dollies, Optimist's on dollies, Laser's on dollies and any other sailboat that is in this size range.
 - b) The spaces that back up to the road (**RS**) are 9ft. wide by 20ft. long and will accommodate Lightning's and other similar size sailboats.
 - c) The largest spaces available are at the west end of the paved parking lot and along the south side of the overflow lot (**PH**). These spaces are 10ft. wide by 22ft. long, Ensigns and similar size keelboats on trailers will fit these spaces.
 - d) Rack storage is available in both the Opti rack (**OR**) and the Laser rack (**LR**).
- 4) There is no restriction on the number of boats that can be kept in a land space, however the sailboat(s) must fit within the lines of the rental space. If more than one boat is to be stored in a single dinghy storage space, then list all boats on one application and the primary boat to use the space. Make sure ALL boats are labeled with the member's name.
- 5) Water storage (**IW**) is available west of the dinghy dock for tenders (dinghies), inflatables and RIB's not to exceed 12 feet LOA. Boats stored in water west of the dinghy dock with outboard motors attached shall provide propeller protection from other boats in the area. A 5 gal. bucket over the raised prop or leaving the prop in the water.
- 6) All dinghy storage area boats and dolly or trailer shall be labeled with the member's name. Boats not labeled will be moved to the back parking lot until the owner can be identified and the boat and trailer labeled. Also, accessory equipment should be labeled with the member's name.
- 7) Member's empty trailers may not be stored on club property during the summer season. Trailer used for moving boats to the crane dock or water ramps are allowed.
- 8) All boats in the dinghy storage area shall be registered with the Waterfront Chairman. Complete a separate application for each boat that will be stored in the dinghy storage area see #4 above. Once a space has been assigned to a member all efforts will be made to continue to reassign the space to the member as long as a renewal application is received each year before the deadline for applying. Late renewal may result in reassigning to a different space.
- 9) Temporary storage of a powerboat on club property may be permitted for use during a regatta or other special event. Approval by the Flag Officers and/or the Board of Governors must be obtained for the temporary storage of a powerboat on Club property and posted in the office

before the boat can be brought onto club property. The boat and trailer that it is on shall be labeled with the member's name.

- 10) "Hot Bunking" – Temporary storage of a member's sailboat in the dinghy storage area is permitted if the boat fits within a designated space. The member shall be charged a daily fee for the "hot bunking." Any boat not registered found on Club property will be considered "hot bunked" and a fee will be assessed of the member.
- 11) Off-season storage of member's boats in the pump house lot is permitted provided there is space available.
 - a) The member shall complete an application before bringing a boat to the club
 - b) The club assumes no responsibility for the boat during its storage at the club.
 - c) The member shall maintain insurance on the boat for the time it is on club property.
 - d) Off-season storage starts after docks out and boats shall be removed before docks in.
 - e) All boats/trailers stored on NBYC property shall be labeled with the member's name.
 - f) The boat being stored shall be on a trailer or dolly that can be moved easily if it is in the way of work that may be done in the storage area.
 - g) There shall be no sanding, scraping, or painting of boats in the dinghy storage area.
